i wanna create an environment where children, adults and elderly people who spend a lot of time alone due to family circumstances, unmarried, bereavement etc. and people whose lives have become difficult due to the corona crisis can easily gather and eat.

③ あなたがこの問題を考えるきっかけになった、具体的なエピソードについて教えてください

when i was in elementary school, i first learned about childrens cafeterias on tv and in the process of making presentations for research i learned about the current state of the world that i didnt know about and became interested in childrens cafeterias. when i became a junior high school student, in a class about sdgs, we chose something from 17 goals, created a fictitious company or shop aiming for that goal, and gave a presentation. the moment i saw no.2 zero hunger, the first thing that came to my mind was the childrens cafeteria i knew when i was in elementary school. however, a question arose when i was thinking about it. "why is it mainly for children?", "why cant adults come freely?" therefore i created something like a slogan, "connecting people with "food" - lets make the dining table around everyone a daily life -" and created a cafe that everyone can come to equally and spend time with someone. i gave a presentation on "Minna No Ouchi". although it was only fictitious, i wanna do something that could be realized in the future. when i became a high school student, i heard about this contest from my teacher. i thought id like to make one, so i applied.

⑦ 上記の変化を起こすために、こだわった点や工夫した点はどこですか？

for example, first of all, the part that supports multiple languages. as is often reported in the news these days, there are many foreigners living in japan, even though they are working at low wages. therefore i thought it would be nice if foreigners could get rid of the language barrier and make it easier for them to come, so i made this site available in five languages: japanese, english, chinese, vietnamese, and korean. in addition, i tried to make the site as detailed and easy to understand as possible for those who support us. also, i created a page to post photos and a page to introduce events such as charity for those who dont know this activity yet, so that it is easy to grasp the atmosphere and create opportunities to get interested.
